#### All The Solutions To Your Requirements

COM-RACK offers a wide range of equipment racks to suit a variety of requirements. COM-RACK gives you the advantages of having Choice, Versatility, and Performance.

#### Choice

COM-RACK offers four lines of equipment racks, each suited to different needs and budgets. There is also a choice of welded racks or easy-to-assemble completely knocked down versions. CKD units offer unparalleled ease of transport, and also offers savings on shipping costs.

#### Versatility

COM-RACK offers four choices of depths: 70cm, 80cm, 90cm, 100cm. With a choice of tempered glass, perspex and perforated door, adjustable shelves and a variety of quality fittings. We also produce a comprehensive range of accessories that allow you the flexibility to customise your equipment's layout to any requirements.

#### Performance

COM-RACK is renowned for durability and ease of use. Whether fully welded or knocked down, sturdy construction, ease-of-use and long-lasting quality are the hallmarks of COM-RACK. So you can have complete peace of mind.
